Exhibit 1000.5 – 11/9/20
GoToMeeting Clip #5

MR. RHODES: You’re from Oath Keepers. You've got a responsibility and duty. You know you raised your freaking right hand. You swore that oath. You don't get to back out of it and run to freaking Belize or Costa Rica or anyplace else. You've got to fight. So we have a chance to get President Trump to fight as Commander in Chief. If you're going to have a fight, guys, you want to start now

MR. RHODES: You do not want to waste this opportunity and let him feel like he has no support, then he gets deflated and he starts listening to the snakes that are in his ear right now, encouraging him to quit and concede, like Kushner. You've got to go there and you've got to make sure he knows that you are willing to die to fight for this country.
